Atlas reserves the right to change any materials, fittings etc., shown in this brochure at any time and without prior notice as supply or product development demand. All Atlas Caravan Holiday Homes are built to comply with all relevant British Standards and Codes of Practice as required by the National Caravan Council certification scheme. NOTE: Caravan Holiday Homes are not designed for residential occupancy. "To use an Atlas Caravan Holiday Home, it will need to be correctly sited, have steps or other means of entry and be connected to services (an appropriate propane gas supply, mains electricity to suit the required power offtake, mains water at a pressure to suit the appliances and a waste water/sewage outlet)". Due to the nature of our construction methods and practices, it may not always be possible to match patterns precisely on some wallboards and fabrics. Any Park Operator, anywhere in the UK, can purchase an Atlas Holiday Home for you through the Atlas Dealer/Park Distribution network.
